

TRANS PENNINE TRAIL USER CODE

ABOUT THE TRAIL

North Yorkshire/Selby

The Trans Pennine Trail is a route for walkers, cyclists and in parts, horse riders who often share the same route.

To keep everybody safe and happy every effort has been made to create a route suitable for all users. Enjoyment of the Trail relies on everybody showing consideration to each other.

Please always follow these guidelines in our User Code when you are on the Trail.

ALL USERS

Where different paths or sides of the path are signed for different user groups - please keep to your side.

Please enjoy the Trans Pennine Trail and help others to do so too!

Take all your litter home.

Please allow others to pass you safely.

HORSE RIDERS

Use only sections of the Trail where horses are allowed.

Do not use the Trail unless you can control your horse - you may encounter walkers, people using wheelchairs and scooters, cyclists, dogs and bridges over road, rail and water.

HORSE RIDERS AND CYCLISTS

Warn others when you approach from behind so you do not startle people as you pass by - call politely or use a bell / hooter.

Slow down when approaching other users who are unpredictable, particularly children or animals; remember too, some people may have a hearing impairment.

CYCLISTS

Must not use this route for racing competitions or speed trials.

On canal towpaths - read and abide by the Canals and Rivers Trust code. www.canalrivertrust.org.uk/about-us/our-campaigns/share-the-space-our-towpath-code

DOG OWNERS

Please clean up after your pet - dog mess spoils the Trail for other people and poses health risks. Keep close control of your dog - preferably on a short lead, especially where farm animals are present.

The Trans Pennine Trail is used by many different groups.

Towns and cities across the north of England are connected by vibrant countryside, canal towpaths and disused railways. The TPT runs coast to coast between Southport and Hornsea, linking the ports of Liverpool and Hull. The trail is 215 miles long between Southport and Hornsea but has a total mileage of 370 miles when you include the spurs to Leeds, Chesterfield, York and Kirkburton.

Walkers and cyclists use the whole TPT with horse riders too on many sections. Easy gradients and surfaced paths make much of the Trail suitable for people using wheelchairs or pushchairs.

Friends of the Trans Pennine Trail

The Friends of the Trans Pennine Trail is a voluntary group who support the project in many ways, including with the production of this leaflet.

You can show your support by joining the Friends of the Trans Pennine Trail.

Selby

York

Riccall is a thriving community with a pretty village green at its heart overlooked by a church and pub. It has busy pubs, three restaurants and a tearoom to welcome visitors. Many visitors call into the village's historic church or nearby Skipwith Common, a nationally important nature reserve covering 500 acres.

The historic town of Selby is one of Yorkshire's hidden gems. The town is dominated by its beautiful Abbey, which is nearly 1,000 years old. Believed to be the birthplace of Henry I, the son of William the Conqueror, and with its internationally-famous Washington window which links to the family of the first president of the United States, the Abbey draws in visitors from around the world. It has hosted the wedding of a Taiwanese pop star, and has since become a 'must see' location for international visitors.

Trail users can then choose two different routes. Going East towards Hornsea takes Trail users to the attractive village of Hemingbrough. This popular village has two

public houses, greengrocers, fish and chip shop, bakery and a host of other small businesses. Its attractive 12th century church has a 120 foot spire which can be seen for many miles around.

Trail users heading south will visit the pretty village of Brayton which boasts a large village green surrounded by mature Horse Chestnut trees, a centre for many village events. Many of the trees were planted as a memorial to those from the village who died in World War 1. Nearby is the popular Brayton Barff, one of the areas few high points. Standing some 150 feet above sea level, the site is well used by local walkers and bird watchers.

Continuing Trail users will pass Burn Airfield, a bomber airfield in the Second World War, which is now regularly used by the popular Burn Gliding Club. Burn is a village with a strong community spirit, a busy local pub and thriving local cricket club.

Next on the trail is the small but quaint little village of Hirst Courtney. Continuing, the large village of Carlton boasts the usually named Oddfellows Arms, so named following a sign writers mistake. Also in the village is Carlton Towers, a stunning historic 250 acre estate which today is a popular wedding venue and cookery school. The property's intricately decorated Victorian Staterooms and Minstrel's Gallery are one of the reasons why Carlton Towers has been called Yorkshire's best kept secret.
